

Your Global SIPP – Fee Schedule

If you need a copy of this document in braille, large print or audio please contact us on +44 (0) 330 124 1505.

Introduction

We want to be as clear and transparent as possible in everything we do – so we have prepared this fee schedule to set out what you will be charged by us for the setting up and operation of Your Global SIPP.

This fee schedule informs you of all the fees that you will be paying for the services we provide you when we set up and administer your self-invested personal pension ('SIPP').

Our fees are not subject to value added tax ('VAT') in the UK if you are resident outside the EEA and UK. However, if you are resident in the EEA or UK the fees quoted in this fee schedule will be subject to additional UK VAT. Please factor that in when you consider the figures quoted in this document.

All fees in the first instance will be collected from your SIPP bank account. If there are insufficient funds to pay our fees then we may sell investments in your SIPP to cover the amount due. When there are no assets that can be sold you will be asked to make payment to us directly.

The fees detailed in this fee schedule do not include any fees payable to any third parties including your financial adviser and chosen investment provider; their charges will be in addition to ours.

Fees for setting up your SIPP and the first annual fees become payable on the date your SIPP is accepted by us. **All annual fees are payable in advance (on a pro-rata basis in the first year, where relevant).** All other fees are deducted on completion of an event or task.

Any fees that are listed as time cost will be discussed and agreed with you before any work by us has commenced. We reserve the right to charge additional fees on a time cost basis for additional work on exceptional or complex cases. If this applies to you, we will discuss and agree with you our fees before any work by us has commenced.

You must always ensure that you hold sufficient cash in your SIPP bank account to cover our fees or any other payments (such as drawdown income) when they are due for payment. If there is insufficient cash, we may sell investments to meet these costs (see the notes at the back of this fee schedule).

Fees are reviewed from time to time and at least once a year. Any changes to fees will be made in accordance with the terms and conditions of your SIPP. This does not apply to charges made by the scheme bankers, investment providers or any other third party as these may change without prior notice.

All annual fees are payable in advance and are normally deducted on or around your SIPP anniversary date. We will not refund (in part or in full) annual fees that have already been deducted.

These fees are effective from **1 August 2023**.

If you have any questions regarding our fees please call us on +44 (0) 330 124 1505 and we will be happy to help you with your query.

Your Global SIPP – Fee Schedule

Minimum opening value	£50,000
Minimum ongoing bank balance	£1,000 (or one year's annual fees if more) plus at least one pension payment (if in drawdown)

Any fees not quoted	time cost	

Time cost rates

Administrator rate	£100 p/h	
Senior administrator rate	£150 p/h	
Senior manager rate	£250 p/h	
Specialist rate	£POA	

Some examples of our fees due within Your Global SIPP

Example 1 - setting up a new Your Global SIPP with an investment platform

Your adviser recommends that you open a Your Global SIPP and transfer in funds you already have built up in other UK personal pension schemes. Your SIPP is opened online with us through your financial adviser.

Once we have set up Your Global SIPP we arrange for the transfer of your existing pension rights held in those personal pension schemes into your SIPP bank account (in cash). Your adviser moves these funds into one of our panel investment platforms and invests the cash into a portfolio of funds.

Our fees that are due and will be deducted from your SIPP bank account are:

On setup	Establishment (online) fee	£150 + VAT
	Transfers in from personal pension fee*	£0
	Setting up a standard investment account (panel) fee	£50 + VAT
	First annual administration (panel) fee in advance	£425 + VAT
	Total fees on setup	£625 + VAT
Annually thereafter	Annual administration (panel) fee	£425 + VAT

* If any of the existing pension schemes you were transferring in was a defined benefit occupational pension scheme there would have been a one-off Transfer fee of £250 (or £500 if we were only given 5 days' notice) at outset (per such scheme transferred).

* If you wanted to transfer existing assets held in your existing pension schemes without selling them (an 'in-specie' transfer) there would have been a one-off Transfer fee of £250 at outset.

There will also be charges due to your financial adviser and the underlying fees for the investment platform holding your investments, both at outset and annually. Your financial adviser will agree these fees and charges with you before you set up the SIPP.

Example 2 – taking benefits a few years later

A few years later you decide to start taking benefits from Your Global SIPP at age 62. In those years you have been paying your annual fee each year.

You take the maximum tax-free lump sum of 25% of your fund value with the remainder being allocated to provide you with a flexi-access drawdown income. You choose to draw a regular income each month. You want the tax-free cash payment quickly to part fund a family holiday so you ask us to pay it through CHAPS. When you take benefits it is 9 months to your next fee anniversary date.

Our fees that are now due and will be deducted from your SIPP bank account are:

On taking benefits	Accessing funds for the first time fee	£150 + VAT
	CHAPS fee	£25
	First annual drawdown administration (income) fee in advance (pro-rata)	£93.75 + VAT
	Total fee on taking benefits	£243.75 + VAT (+£25)
Annually thereafter (from next anniversary point)	Annual administration (panel) fee	£425 + VAT
	Annual drawdown administration (income) fee	£125 + VAT
	Total annual fee	£550 + VAT

Example 3 – transferring out and closing Your Global SIPP

A few years later you and your financial adviser decide to move to a different UK SIPP provider.

You ask us to transfer out your existing assets in-specie to your new UK SIPP and close Your Global SIPP with us.

Our fees that are now due and will be deducted from your SIPP bank account are:

On closing Your Global SIPP	In-specie transfer out to UK registered pension scheme (including cash)*	£500 + VAT
	SIPP closure following transfer out fee	£300 + VAT
	Total closure fee	£800 + VAT

* If you instead sold all your investments and just transferred cash our fee would be £300 (not £500). However, there are likely to be costs in selling your investments (due to any spread on the buying or selling prices of your investments) plus fees due to the provider of your investment platform.

There is no refund of any annual administration fees paid in advance due.

You also need to consider any fees and costs linked to the receiving pension scheme, as well as any fees your financial adviser or investment platform provider charge.

Important notes on our fees

These notes should be read in conjunction with the terms and conditions of Your Global SIPP.

Parties administrating your SIPP:

Options UK Personal Pensions LLP ('Options UK') ('we') act as third-party administrator for Your Global SIPP. They provide the day-to-day administration services for Your Global SIPP and will be your first point of contact in relation to your SIPP. London & Colonial Services Limited ('London & Colonial')(also "we") and Options UK are both authorised and regulated in the UK by the Financial Conduct Authority ('FCA')

Instructions and notices:

We may act upon written, email or facsimile instructions but reserve the right to refuse to act until the original written instruction is received. We will not act on oral instruction alone.

Payment requests:

Any payment required from your SIPP will be made by BACS payment unless otherwise stated. If you require CHAPS or faster payment please inform us before the payment is instructed, as any bank charges will be charged back to your SIPP.

Annual drawdown payments fee:

On your SIPP renewal date, if pension income has been paid from your SIPP in the previous year we will automatically charge the relevant annual drawdown fee. If pension income is not required from the SIPP in the new invoicing year, please inform us and we will reduce the SIPP annual drawdown fee accordingly.

If pension income is being paid from your SIPP and disinvestments are required from a third-party investment provider we will not be held liable for any delays encountered in transferring funds back to your SIPP bank account. Making sure that there is always sufficient cash in your SIPP bank account is your (or your financial adviser's) responsibility.

Fee increases:

We reserve the right to increase all fees annually in line with the published annual increase in the Average Weekly Earnings Index ('AWE') 'as at' September, rounded up to the nearest £1. If we do not increase a fee in any year, we may base the next increase on the change to the AWE since the last increase in that fee. Any increase will take effect on the 1st January each year.

We also reserve the right to increase fees due to any standard inflationary increases. If any fee increases exceed the AWE as of September each year, notice will be given prior to invoicing in accordance with our terms and conditions.

Cancelled or aborted transactions:

We reserve the right to charge for the work undertaken in accordance with this fee schedule if you cancel a transaction. If this is the case, we will let you know first what we think the fees will be..

Settlement of fees:

Fees will be due for settlement within 30 days from the date the fee is raised.

If there are sufficient cash funds available in your SIPP your outstanding fee will automatically be taken from your SIPP bank account.

If at any time the amount in your SIPP bank account is not enough to cover all costs and liabilities in full, we will arrange to sell down from the investments held in your SIPP to meet the amounts due. Further detail is given in our terms and conditions.

If amounts due fail to be deducted from your SIPP bank account then we are entitled to add interest on a daily basis to the amount due at a rate of 3% above the Bank of England base rate, as amended from time to time, until such time as the balance in your SIPP bank account is adequate to allow us to meet the amounts due.

SIPP bank account interest terms:

Any cash held within your designated SIPP bank account may receive interest, depending on the cash balance held and the interest terms applicable at the time (please see our SIPP Interest Policy on our website for details of the current rates and terms available).

We may also receive interest payments from our designated SIPP bank provider, based on the total aggregate cash balances held. We reserve the right to retain interest to help maintain lower SIPP administration fees.

Financial advice:

We cannot provide you with financial advice, nor can we be responsible for determining whether a SIPP is the most suitable vehicle for funding for your retirement. We also cannot provide advice or recommend any suitable investments for the SIPP and in taking out an investment it is understood that you have accepted the investment's suitability and risk.

If you need help finding a regulated financial adviser, you can visit www.fca.org.uk/consumers/finding-adviser.

Your adviser will inform you of any charges that apply in return for their advice.
